

S. CONNELLSVILLE SCHOOL TAXES ARE INCREASED 3 MILLS

High Cost of High School
Tuition One of the
Reasons.

A FINANCIAL DEFICIT EXISTS

All Old Teachers Who Applied Are
Rejected; Samuel J. Jones Elected
a Rejected in High School; Miss
Nellie Mairi Is New Instructor.

Due to the expense incurred by
sending her who had to leave to complete
a four-year course, and a deficit in
the treasury for the past several years,
the Board of Education has voted to
increase the tuition rates of the millage
from 12 to 15 mills, \$22 mills for the
general fund, and 14 mills for the sinking
fund. Next year another course
will be added to the high school
making it a three years course.

Two new teachers and all the old
teachers who were high over were
elected for the term. Samuel J. Jones
was elected high school principal to
successor of George, who was appointed
as principal. Mr. Jones is well known
in educational circles. The other
new teacher is Miss Nellie Mairi, a
former teacher in the Meyersdale
schools. Since the close of her high
school studies she has done
some substitute work in the South
Connellsdale schools.

The remainder of the teaching corps
is as follows: Miss Virginia Shultz
Mrs. H. H. Miller, Anna K. Fisher, Ned
Trombley, Mrs. John S. Shultz, Mrs.
Tremper, Mr. C. P. Justice, Tom
Krause, Raymond, and Mrs. M.
Clegg. Mrs. Mairi, the other high school
teacher, the election was deferred until
a later meeting. Harry Adams
and Mrs. Anna Miller were re-elected
trustees. The election of the teachers
will remain the same as last year.

of the class were named a committee to
arrange for the reception and cere-
monies.

The class meeting is to be held
on Saturday, May 14, at the home
of Mrs. Pauline Hart. That example
for the colors will be held next
week.

Judge J. Q. Van Swearingen appointed
a commission to make an
inquiry into the mental condition of
Peter Turak, who was sentenced to 20
years in the penitentiary for shooting
John Pepple at Roslyn. The court
named as members of the commission
W. W. Miller, attorney; H. H. Hale
and Dr. P. V. Smith. In the petition
for a commission, Dr. Campbell

the jury recommended that he be given
the extreme penalty under the
law. On March 27, 1913, he was sent
to prison for 20 years in the penitentiary.
He was placed on trial for the killing
of Pepple in March 18. A plea of self
defense was made by Turak's counsel,
no denial of the shooting having been
made. The case was tried at the same
time as DeLoach and Wells were tried
at the famous McKean County mur-
der.

If rheumatism is the wonderful pres-

tape?

Rheumatism is a dangerous disease
because of its chronic nature it
often attacks the heart and proves fatal.
Any one with even a hint of
rheumatism ought to drive it out as
soon as possible.

Rheumatism is caused by sluggish
blood or overworked kidneys
which become enlarged and fail to
eliminate the impurities from the system.

Rheumatism acts promptly and drives
up the kidneys, which causes the

WASHING WON'T RID HEAD OF DANDRUFF

Dissolve It, That's Best Way.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid soap; apply it to skin when retiring; use enough to loosen the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, as three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be bony, lustrous, glossy, silk and soft, and look and feel a million times better.

If you want to preserve your hair, do by all means get rid of dandruff, or nothing destroys the hair more quickly. It not only staves the hair and makes it fall out, but it makes it strong, sticky, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid soap at any drug store. It is inexpensive and never fails to do the work.

INHUMAN WARFARE.

There are two sides to most questions and the English side has several angles from which it should be viewed to get a just idea of its meaning and proportions.

A British jury finds that the victims of the British liner came to their death at the hands of the German Emperor and the German nation and denounces the latter as murderer. But Great Britain herself is entirely free from blame in this case. She did not start the war in this vessel. She knew or ought to have known that an attempt would probably be made to destroy the transports. The British Admiralty should have provided an escort for the ship from the time it entered the danger zone until it docked. A couple of torpedo boats destroyed convoys by sea planes would have afforded protection. Great Britain failed to properly police its own waters.

Moreover, it is not forgotten that England brought about these submarine accusations by referring to a code in the American press that foot-soldiers in all other nations had and were accustomed in most ships to commit atrocities. England referred to the American press that the Germans had committed atrocities. It was an inhuman act. It was an inhuman act.

It went far to dilute the terms and conditions of a long war weary. The international rules of warfare had been disregarded. The rules are binding only so far as they are agreeable to the aggressor. Nations who enter the war zone do so at their own risk. While we are called upon to mourn the loss of many American citizens who went down with the transports we are compelled to admit that from an international point of view we were right.

The sinking of the Lusitania involved the whole world of non-combatants in innumerable and humanely protests against the methods of warfare. But it does not affect our policy which would spare the women and children of Germany. It is true that all war is murder, but hitherto there has been an unwritten law among warring peoples that there shall be no war on women and children aged and infirm. Peoples known as non-combatants and no harm can transpire upon them. But it is not so with the German.

It is hard to see that the American answer to the sinking of the Lusitania will be to demand a test in short order. This is warfare and it is to be hoped that we will have the effect of convincing England and Germany to revise their methods.

HOT OVENS AND COLD PARTS.

Every time a set of ovens is built in the Connellsville coke region in the legitimate papers of Fayette County with a load tolling of 100 and thousand of drums advertises the fact in the evidence of the furnace of 100 tons but they never mention the shutting down of seven or eight thousand more ovens have been put up than were put in.

Those who desire to be correctly advised as to the Connellsville coke which gives the greatest tonnage from week to week, with oil, will find this information in the Connellsville coke book. It has had a rather fresh during the past year but that upon the whole it has improved decidedly in size and character, production having increased approximately from 20,000 to 30,000 tons weekly the market coming chiefly from plants operated by local interests, though in a great production its increased from 40,000 to 120,000 a month.

More over areas of Indiana are struck for a time in order to increase merchant production and possibly in price. The lower home to the highest which he has come to the coal region since the present policy of mechanization of the starved variety. Some operators are practically giving their coal away and none of them are realizing value from it.

It may be well enough to remember however that such prosperity as the Connellsville coke trade now enjoys is due to the Democratic influence of the large number of them. The European war has not done the demand for steel, iron and coke and at the same time practically shut off foreign competition from which this country suffered more or less severely up to the time of war.

The Democratic party has a right in this. It is a sign of trying to make it appear that Republicans are willing to tell the truth about business and economics of prosperity when as the only enemies are party had to have been of Democratic character.

From our sources comes a refreshing note of independence. In these days of servility when the present leaders of the know are crooked that there is a fellow known upon executive level as a federal judge in Pittsburg who is a member of the judiciary independent of the six or seven powers and so far his court is concerned will go on.

The New York Stock Exchange was torpedoed last night.

The first session of county court consisting of the sheriff, an ex-Sergeant of the National Guard, a notary public and a constable was held from 8:30 to 10:30 a.m. in the office of the sheriff at the jail in the city of Connellsville.

Some difficulty was experienced in getting the sheriff to sign the warrant for the removal of the sheriff's leaving office.

FULL CREW REPEAL MEASURE IS NOW UP TO THE GOVERNOR

BILL PASSES THE SENATE BY A GOOD MARGIN; HAS PASSED HOUSE.

SENATOR CROW OPPOSES IT

FAYETTE MEMBER MAKES GOOD PLEDGE TO BALDWIN MEN TO VOTE AGAINST THE MEASURE. House Votes Down Bill to Boost Automobile License Fees.

HARRISBURG, May 11.—The railroad men have lost their fight in the legislature against the repeal of the full crew law of 1911, and it is now up to Governor Brumback to determine whether the law shall remain on the books or not. He went on record during the campaign last fall against the repealer. The Senate last night, by a vote of 33 to 16, passed the Baldwin bill repealing the law three weeks ago. The House voted through the measure by a vote of 125 to 12.

The senators voting last night to repeat the law were: Buckman Clark, Croft, Davis, Dwyer, Gerhart, Goss, Hardesty, Hilton, Hinchman, Hommer, Jenkins, Kurtz, Lynch, Martin, McKee, McShane, Miller, Putnam, Phillips, Stalzer, Steffens, Thompson, W. Smith, P. W. Snyder, Sonnenfeld, Stewart, Tompkins, Van Warner, Webster.

Thus voting against the repeal were: Fieldman, Birky, Callin, Connelly, Graff, Harbeck, Kline, May, R. S. Smith, Charles A. Snyder, Thompson.

Governor Brumback's program of revenue saving measures by which he expected to procure money to extend the war highway improvement received a severe check in the House last night, and it is doubtful if more than one will reach his desk. If the revenue bills do not reach him, the governor has made it plain that the state program would not suffer but that he has no objection to contributions to charitable institutions and other such money into the highway department.

All of the revenue bills were up for consideration last night on special orders. The House first voted down the Hess Hill taxing stick transfers two cents on each \$100. The vote was 52 to 72. It lacked the constitutional majority of 101. There was no discussion of the measure. As this is the 50th and thus this bill in defeat it cannot be called up again.

The House then tackled the Thibault Hill riding out bill in defeat. It was 52 to 51 percent. After lengthy debate it was thrown to 66 to 59 to 12. When the bill arrived in the Senate strong protests arose from the sound reason that it was not really a revenue bill and that it would not be fair to discriminate between the rich and the poor.

When the bill arrived in the Senate strong protests arose from the sound reason that it was not really a revenue bill and that it would not be fair to discriminate between the rich and the poor.

The only revenue bill carried through was the Sprout bill reducing the state of paying for primary schools. This will give the state more revenue by forcing the counties to pay the bill for the education of the poor. The bill proposed by a vote of 125 to 12.

According to the report of the committee it is recommended that the Senate be instructed that this will save the state about \$10,000 a year.

In the Senate the bill in regard to selection of the superintendent and deputy superintendent of state police passed finally.

Bills were disposed of finally in the Senate last night as follows:

FAMOUS DOCTORS SECRET OF SUCCESS

Remedies Compounded for Requirements of Each Patient.

MAKE A CAREFUL DIAGNOSIS

Extreme Care Used in Learning Cause of Disease or Ailment.

It has been a wonder to the general public as to how the Inter-State Doctors, who have their Connellsville Institute on the second floor of the Citizens National Bank Building, corner of Pittsburg and Apple streets, accomplish cures in cases that have been pronounced incurable by other methods of treatment. They have cured chronic diseases and ailments of practically every description. They attribute part of their success to great care taken in ascertaining the trouble and cause of the ailment, preparing medicines in their own laboratory, and using newly-discovered remedies. They never operate or cut into the body and they combine all the different schools of medicine into one's system for the good of the patient. Cases they deem incurable under their methods they refuse to treat.

Fresh and pure drugs are received constantly at their institutes and from them they compound their medicines. There is hardly a day that they do not receive a testimonial from a cured patient.

The Inter-State Doctors treat among other diseases and ailments chronic and degenerated diseases of the nerves, bladder, heart, liver, kidneys, spine, brain, including rheumatism, paralysis, epilepsy, gall stones, goitre, asthma, deafness, catarrh, indigestion, constipation, loss of nerve force and diseases of women and disease of men.

They announce their office hours as being from 9 A. M. to 12 noon, 1:30 to 3 P. M., and evenings 7 to 8, Sundays from 9 to 12 only. Adv.

WHEN YOU WASH YOUR HAIR DON'T USE SOAP

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain unsulfured coconut oil, for this is pure and entirely greaseless. It's very cheap, it beats soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

But One Is Always Broken While the Other Never Is.

Mrs. A. has \$75 a month for household expenses and is always hard up. She keeps, or rather doesn't keep, the money in her pocket and pays cash. Mrs. B. gets the same sum to run her house and she saves money. She puts her \$75 in a checking account at the old reliable First National and pays off bills by check. Have a record of every transaction and sees what items can be cut. Better try Mrs. B.'s way.
